

Schmetz Needles . . . the Highest Quality & the Greatest Variety!

Universal —
For general sewing of most woven and knit materials.

Ball Point —
For use on knitted materials.

Denim — For jeans and similar densely woven materials.

Stretch — For synthetic suedes and elastic knit wear.

Overlock — Sharp point suitable for all fabrics.

Triple — Three needles on a crossbar with a single shaft.

Metallic — Provides trouble-free sewing with large metallic threads.

Microtex/Sharp — For topstitching or edge stitching on silk and microfiber fabrics.

Quilting — Prevents damage to sensitive materials used in quilting.

Topstitch — Extra sharp with extra large eye and a large groove to accommodate topstitch thread.

Self-Threading — Has slip-in threading slot for people having difficulty threading needles.

Machine Embroidery — For rayon and specialty machine embroidery thread.

Leather — Has a slight cutting point for leather and heavy nonwoven synthetics.

Hemstitch — Wing needle for decorative stitching on tightly woven fabrics.

Double Needles are incredibly functional and decorative allowing the user to sew two rows of stitching at the same time.

Double Needle — Universal
Double Denim Needle
Double Hemstitch
Double Machine Embr. Needle
Double Metallic Needle
Double Needle — Extra Wide
Double Stretch Needle
